THIS WEEK BELLEVILLE STARTS TO BUILD FOR 1925

Fifteen Teams-75 Men--started to-day to secure members for the Reorganized Board of Trade.

They are average citizens, just like yourself, who have already joined and are giving their valuable time to make this campaign a big community achievement.

They will call on you. Give them the glad hand and register your faith in Belleville.

Nature gives cities opportunities, but the energy and intelligence of men make them great.

You put it over on all the war drives. Your love of country gave you the punch. Your city needs you today. Use that same patriotic spirit and put it over for Belleville now.

One Thousand Men united in a common cause can accomplish anything within reason for Belleville.

Belleville's Greatest Enterprise IS THE CITY OF BELLEVILLE ITSELF

CITIES DON'T GROW -- THEY ARE BUILT

Belleville Needs a Reorganized Board of Trade

BECAUSE--

IT OFFERS BELLEVILLE THE OPPORTUNITY TO PROFIT BY THE TWO GREAT THINGS TAUGHT BY THE WAR: TO APPLY UNSELFISH SERVICE, AND CO-OPERATIVE ORGANIZATION TO THE BENEFIT OF THIS WHOLE COMMUNITY.

THE REORGANIZED BOARD OF TRADE IS TO BE FOUNDED ON THE GREAT FACT THAT A COMMUNITY CAN MAKE NO CONTINUING PROGRESS UNLESS THE CITIZENS LEARN TO INTELLIGENTLY SERVE THE PUBLIC WELFARE AND APPLY TEAM THINKING AND TEAM WORKING TO COMMUNITY AFFAIRS.

BELLEVILLE CAN HAVE WHATEVER ADVANCEMENT, PROSPERITY OR HAPPINESS IT WANTS, BUT IT WILL OBTAIN THESE THINGS ONLY THROUGH CO-ORDINATION OF EFFORT. THE REORGANIZED BOARD OF TRADE WILL PROVIDE A PERMANENT AND EFFICIENT PUBLIC INSTITUTION TO WHICH EACH CITIZEN MAY CONTRIBUTE HIS SHARE OF SERVICE IN COMMUNITY ADVANCEMENT.

Belleville Can Best be Built Through the Reorganized Board of Trade

BECAUSE--

- 1.—IT WILL REPRESENT ALL SECTIONS OF THE CITY.
- 2.—IT WILL HAVE THE GREATER INFLUENCE OF GREATER NUMBERS.
- 3.—IT WILL HAVE A LARGER, MORE DEMOCRATIC, MORE REPRESENTATIVE MEMBERSHIP.
- 4.—IT WILL PAY DIVIDENDS IN ACTUAL ACCOMPLISHMENTS.
- 5.—IT WILL HAVE THE POWER TO FORCE TO CONCLUSION, AND THE RIGHT CONCLUSION, THE MOVEMENT STARTED.
- 6.—IT WILL HAVE A DEFINITE PLAN OF WORK ALL THE TIME.

WITH THESE FEATURES THE REORGANIZED BOARD OF TRADE, REPRESENTING, AS IT WILL, THE ENTIRE COMMUNITY, WILL BE IN A POSITION TO ASSIST AND STRENGTHEN ALL OTHER ORGANIZATIONS IN THEIR EFFORTS FOR BETTERMENT.

IT WILL SERVE AS A CLEARING HOUSE FOR THESE EFFORTS AND ALSO FOR THE SUGGESTIONS OF ANY RESIDENT OF THE CITY SO THAT THE BEST IDEAS FOR THE GOOD OF BELLEVILLE MAY BE USED EFFECTIVELY.

**Wait for No Man - Lead Yourself
Join The Board of Trade NOW**

CRISP COMMENT

Mr. D. McKendree, leader of the Liberal party, has drawn the line as to his conduct. He has said that if the party is in the same proportion, as he covers the telephone would no longer be necessary. —Punch.

Mr. D. McKendree, leader of the Liberal party, has drawn the line as to his conduct. He has said that if the party is in the same proportion, as he covers the telephone would no longer be necessary. —Punch.

Gladly says that Queen's Park is the "new" Liberal party, has drawn the line as to his conduct. He has said that if the party is in the same proportion, as he covers the telephone would no longer be necessary. —Punch.

Public School Inspector and Public School Principals will be members of the Ontario Teachers' Association, which will be held in Toronto, Ontario, December 10th, 11th and 12th. The association will be held in Toronto, Ontario, December 10th, 11th and 12th.

Former Drury has demonstrated that he is not a good party member. He has shown that he is not a good party member. He has shown that he is not a good party member. He has shown that he is not a good party member.

A certain man in Toronto was a real "anti-socialist" until recently. Now he is a real "anti-socialist". The reason for this man's change of views is a very practical one. He is suffering from amnesia and has lost all his money. He is suffering from amnesia and has lost all his money.

As it was expected the twenty-four year old trial is trying the case of the "anti-socialist". The reason for this man's change of views is a very practical one. He is suffering from amnesia and has lost all his money.

Other views. The reason for this man's change of views is a very practical one. He is suffering from amnesia and has lost all his money. He is suffering from amnesia and has lost all his money.

You Need Not Suffer

the inconvenience of a cough, when a few doses of

NADRUO Syrup of Tar
with
Cocaine Oil Compound

It gives you almost instant relief. It breaks the removal of the bronchial tubes, stops the annoying tickle that leads to spasms of coughing and soon restores the throat to its normal condition. On account of its pleasant taste, children take it readily. Keep a bottle always in the house.

Note: The package is Red and bears the "No-Dro" Trade Mark.

Manufactured by National Drug and Chemical Company of Canada, Limited.

LET THERE BE HARMONY IN THINGS ESSENTIAL-LIBERTY IN THINGS NOT ESSENTIAL-CHARITY IN ALL

BELLEVILLE ONTARIO WEDNESDAY DECEMBER 3, 1915.

Former Victim
Helps Teutons

British Captain Forgets Past With
German Ship In Distress.

HALIFAX, N.S., Dec. 3.—The first German vessel to enter Halifax since the war was in the harbor "Paul" freighter, Hamburg and commanded by Hans Kaptein Wolf Krueger, who during the war was pilot of a German steamer in the North Sea.

The "Paul" left Hamburg thirty-eight days ago, in ballast, for Philadelphia and had a succession of three storms. He was reported in distress a week ago and it was current talk that passenger ships refused to render any assistance beyond taking of the crew in case they proposed abandoning the vessel. No one would take her to tow.

Had No Choice

The Captain was able to reach this port, as he did, without proper charts, and ignorant of the coast, is remarkably fortunate in the assistance of a German ship. His wife is a passenger with him.

At Philadelphia she was to be loaded by Senzobro Bros with barrells of oil. On November 1 Captain Krueger says in longitude 1240 W., latitude 40-00 N. a heavy storm came up that broke off the fore topmast and forced the vessel to lay to for four days.

Britisher Took Risk

During the storm one of the sailors was on the forecast, making the lower topmast that when the main top broke and the man was thrown to the deck, breaking one of his legs and arm and also received severe internal injuries. The British steamer Idaho soon arrived on the scene and took the injured man off. The "Paul" then proceeded on her way to Philadelphia, but on November 19 fell to another gale, blowing from the southeast. They were forced to heave to again, this time the main top mast was carried away. Later in the day the nation tugboat came down.

Two days later the Furze Line ship, Northwestern Miller here in company, and the "Paul" asked for a tow. The Miller replied she would take the barge in tow, but after coming alongside said away without sending her further word to the disabled vessel.

The next steamer to pass was the Furze Line Mauchester Merchant in charge of Captain Muegner, who carried this war had his ship torpedoed by the Germans, and his crew took to their boats when the enemy submarine rose to the surface and fired on the sailors.

Notwithstanding this bitter experience, Captain Muegner is still helping the Germans, but he did all in his power to help them.

Did He Sign For Them

The Captain of the "Paul" spoke of Captain Muegner as a splendid sailor, who did all that he could, sending messages to his own in Hamburg and his agents in New York, and scattering messages broadcast over the ocean. The Mauchester Merchant went on her way, and the "Paul" started for Cape Race. She had lost twenty-two sails, and now had only one lower reefed, one mainmast and one foremast.

On November 25 the "Paul" ran to a calm, but suddenly a terrible electrical storm broke out. After this a special steamer passed so close that the "Paul" was almost crushed up on her deck. The "Paul" was showing distress signals, but the coastal steamer passed by taking no notice of the helpless Apparatus Cap. Krueger says, "there was much we knew."

Nearly 2,000 Killed

In Ontario last year, the lives of 2,219 persons were claimed by coal fires. This is all the more terrible because most of them might have been saved had they been helped in time.

Here is a case in point. Several years ago a man came to the New York Free Hospital for Consumption. He had been on Africa, where he had been working and exposure had broken down his health. Suspicious of his symptoms he sought our aid. A short time ago he wrote:

"Thank you. My Hospital a soldier of the South African War, repaid his health and a family a happy home."

This is not an isolated case, for many others have been restored to health and anxious families. It takes much money to carry on this work. Your gift, for whatever amount, will be gratefully received.

Contributions may be sent to Dr. William Gage, 404 Ontario avenue, or Dr. A. B. Bell, 222 College Street, Toronto.

American Spectators try to see the Prince

Ready Market
For Gov't Fish

Scheme to Battle H.C.L. Justified
Sells, Says Department.

Because of the existence of the fish league of the Fisheries Department of the Ontario Government, it is estimated that for the twelve months ending in October, the people of this province were directly saved approximately \$100,000 and probably much more than this indirectly. That is the year the Department placed 2,455,262 pounds of fish on the market, as compared with 2,750,135 the previous year. The retail price of these fish was 12 cents a pound and it will thus be seen that the sale for the year amounted to about \$172,285.

The year just closed has been the most successful one for the department. The purpose of the Board Government is to relieve the fish buyers as well as to assist in keeping down the price of the fish on the market at risk. While it is not the intention to show large profits, it is understood, although the fish are not yet available, that there will be a balance in the year.

Yes, Davis, a girl fish it harder to be caught by a war man who will not be a balance in the year. The fish is perfectly willing to tell, along with his wife's son.

One feature of last year's operations that undoubtedly pleased the private fisherman was that the Department had not found it necessary to demand, as is permitted under the H. consens. 20 per cent. of their fish at prices fixed by the Government. "It is doubtful if even 1 per cent. of the fishermen's catch was taken by the Government."

The bulk of the fish sold by the Government came from the waters of Lake Ontario, while lesser quantities were secured from Lake Huron and Lake Erie. In all three waters the Government has its own nets and contractors. The contractors entered into the waters of Lake Ontario, throughout the Province, who had been nominated by the municipal authorities, provided that the Government would supply whitefish up to November 1. This clause was lived up to, and fish were also available to meet all demands until about November 15. Now, however, Lake Ontario is frozen over and winter fishing is not on in full swing. The department has in cold storage at London and St. Thomas a substantial quantity of fish. It is understood, to meet the demands made upon it at this season of the year.

The price for the fish sold during the winter has not been fixed, but it will necessarily be somewhat higher, in order to take care of the increased charges. It is probable the fish will be available at an increase of two cents a pound; that is 17 cents a pound "cash and carry" and 19 cents a pound "credit and delivered."

Last season there were fewer Government dealers in the first year in this way it was possible to meet the demand at all times, and also to throw a check on the retailers to obtain the Government's fish. Whether or not the Sales Branch will continue under the Treasury Department is yet to be decided.

SIR THOMAS LIPTON
HAS SAILED FOR HOME

NEWYORK, Dec. 3.—Sir Thomas Lipton sailed for home on the Steamship Adriatic, for Cherbourg and Southampton, still-mutilated probably by the "Shamrock IV" would turn the American Cup next year. He will return here in April with his motor "Shamrock" which has little more than any such wreck as the "challenging yacht's" "trial home" he said.

RUBY BEAVERS CAUSE
DEATH OF DOG

EDMONTON, Dec. 2.—The boy lawyer has been sent quite too active in the case of Alberta, and to pay him for his mischief he has been causing to farm property and live stock he is to be legally hunted and trapped in all the country south of the 55th parallel. Notice is being sent out by the Game Guardian's office to that effect.

Permit will not be issued to owners of property or their agents, in the case of the number of animals that may be caught.

In the Canadian province, along the British Main River and in other sections of Central and Southern Alberta, the beavers have been at their old tricks of building dams, with the result that water levels have been raised and numbers of cattle and horses have been drowned in crossing the shallow streams thus swollen.

They destroyed their usual proportions. The complaint is also made that they are destroying the break along the river, which is under for shelter.

To Debate Policy
Of Lottery Bonds

LOONDON, Dec. 3.—The question whether the Government shall embark on a policy of raising money by lottery methods will come up before the House of Commons when a proposal for an issue of premium bonds will be discussed.

The proposal has a warm popular following, but it is being strongly opposed by bankers, Churchmen and others on the ground general that it would constitute gambling, lower the national financial prestige and demoralize the public. Supporters of the measure contend that the issue of five million would draw out at least 1,000,000 which the Treasury could not rest by other means.

The Cabinet has decided an attempt of neutrality as the matter and will simply put the question before the House of Commons and let the members decide it. David Lloyd George, the Premier, Arthur Balfour, Lord Lansdowne and other members of the Government are believed to disapprove of the scheme. The Archbishop of Canterbury has denounced it, and many more were present against it in many of the Nonconformist Churches throughout the country.

MADE IN GERMANY
WITHOUT THE LABEL

LOONDON, Dec. 3.—The Germans are making a big effort to capture the British trade in certain articles. Already silk, cotton and other manufactured quantities. Samples of German goods also have been received and it is believed the object will be to tempt the markets before bringing delivery in bulk.

Dorothy Cheesman, general secretary of the National Union of Mail-Workers, says:

"Though the popular idea is that German goods are still marked 'Made in Germany,' there is a good reason to believe that enormous quantities of German made goods are being shipped here through neutral countries without anything to indicate their true origin."

Mr. Cheesman suggests that to improve the difficulty all foreign goods might be marked "Not British Manufacture."

THE FIRST TWO DAYS

THE FIRST TWO DAYS of the campaign for the reorganized Board of Trade have resulted in remarkable progress. It is confidently predicted that the objective will be reached.

Business men, realizing the need for progress in Belleville's interest, and satisfied that the newly-constituted Board of Trade is the body to perform the necessary tasks of the future, are joining up with an enthusiasm that promises well for the New Board of Trade power to accomplish things.

Who Invented the Tanks?

Other Men Want Credit

Given to E. D. Swinton

THE Secretary for War, Winston Churchill, testifies before the Royal Commission on Awards to Inventors, declared that it was impossible to say "that this or that man invented the tank," the celebrated motor that looks through the enemy's wire entanglements, and its projector, the whisper (British) and the hush (French), that changed relieving Germans and poured machine-gun fire into them. But when Mr. Churchill spoke of eighteen types of land mine from which machine-guns constructed by the Government he did not mean the machine-guns, but the men who dealt with the tank idea. The credit of the tank is given to the man who invented it—"Uncle" Ben Holt, of California, who was the first to give it the power and basis of the war tank. Col. C. C. Williams, director of the Tank Corps of the United States Army, made the following statement in December, 1913, says the New York Times, about the evolution of the machine which the British first used at Deville Wood on September 15, 1918, in the Battle of the Somme: "For several years prior to that world war the authorities of the British army had been endeavoring to create some machine highly effective in the fighting capacity, and at the same time affording maximum protection to its crew. The First Manufacturing Company, makers of the first tank tractor, were giving a representative demonstration in one of the large German cities about 1912. A representative of the British Government, who happened to see the

machine, mentioned the idea of the tank, but the machine which would enable a single man to operate it was not yet invented. It was not until 1915 that the British army had been endeavoring to create some machine highly effective in the fighting capacity, and at the same time affording maximum protection to its crew. Cold-Weather Stockings

at a reasonable price

HERE'S welcome news—especially when clothing prices are taking another jump. You can get warm stockings for your boys at a considerably lower price than you expected to pay. Ask your dealer, for Buster Brown Stockings.

They're closely knit. They'll keep out the cold, and stand the strain of the toboggan-slide and skating rink.

Buster Brown Stockings will cut down your mending. They're harder wearing because they're knitted from extra long yarn—yarn by ourselves to make sure it's right. Knitted with triple-ply and double-ply legs and feet. Shaped to fit, with elastic-ribbed legs and narrowed feet and ankles. Fast dyes keep them from fading.

Ask for Buster Brown durable hosiery—the economical kind. BUSTER BROWN'S SISTER'S STOCKINGS are made from fine two-thread English mercerized linen. Shaped to fit and give splendid wear at a moderate price. Colors are Black, Leather Shade Tan, Pink, Blue and White.

Indian Reserve Lands Purchased For Vets.

Settlement Board Secures Saskatchewan-
Alberta Lands Worth
\$1,000,000.

OTTAWA, Oct. 2.—A million dollars worth of Indian reserve lands have been surrendered to the Soldiers' Settlement Board for the use of returned soldiers. These lands are purchased at a price and sold to the soldiers at the purchase price. They are mostly located in Saskatchewan and Alberta, and are excellent for settlement purposes.

The money paid for the surrender goes to the Indian trust fund which now totals about \$1,000,000. Inspection of the lands has been made by Walter Green, land valuator for the Soldiers' Land Settlement Board, and he has reported to the Minister of Interior on the question. Many acres of the land surrendered have already been settled by soldiers.

and P. D. Ross, of Ottawa, that application from these people for the purchase of the land should be considered, in the fall of the year, to distribute at the beginning of the year.

The amount of the disposal of the trustees is about \$100,000, which is being gradually accumulated from private contributions made by the soldiers who are in England and after the return of the men to Canada, and from other sources. In view of the fact that the money is being devoted to the purchase of the land, the Soldiers' Settlement Board, the Military Department, is being consulted, and a few of the front row people have a terrible time getting home from Belleville on Saturday evening, so account of the train.

Mr. and Mrs. W. H. Russell and Mrs. Mabel Latta left for Toronto last week, where they have accepted a position.

Linbury is a patient at the Memorial Hospital here, where Mr. X-ray was taken. He is a member of the legion of the veterans of the war, and a native of New Windsor, Va. The young soldier's condition is critical.

RENEWABLES A LUMBER

The Epworth League will have their annual meeting on Thursday night, Oct. 22, at 8 o'clock.

Mr. and Mrs. Fred Swain and Earl Latta visited this week at the home of Mr. D. Shover, of St. Mary's.

Mr. and Mrs. Frank Wood and family spent Sunday with the latter's father, Mr. J. Tucker.

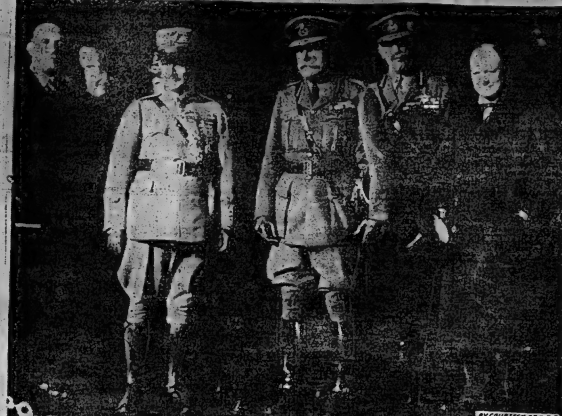

Mr. and Mrs. W. H. Russell and Mrs. Mabel Latta left for Toronto last week, where they have accepted a position.

CLIMBING THE CANADIAN ALPS

The rapid advancement of mountaineering in Canada has several noteworthy causes. Chief is the increasing accessibility of rugged territory recently. The C.P.R. offers you to such wonderful as "Jasper Lake House, Yoho Park, and Glacier which have become familiar haunts of pleasure-seeking Canadians as well as many thousands of foreign visitors annually.

This factor that has exerted much influence on the development of mountaineering in this country is the Alpine Club of Canada, formed in 1906 for the promotion of public interest in all that concerns the mountains. Although the club has now an active membership exceeding the hundred and in the past decade has been the means of enabling thousands to enjoy to the full this most interesting sport. It is still less known that it is so active in its efforts to make the mountains more accessible to the public and to make it possible for the pleasure-seeker to enjoy the mountains in the most comfortable manner.

It is the rapid advancement of mountaineering in Canada that has led to the formation of the Alpine Club of Canada, which has been the means of enabling thousands to enjoy to the full this most interesting sport. It is still less known that it is so active in its efforts to make the mountains more accessible to the public and to make it possible for the pleasure-seeker to enjoy the mountains in the most comfortable manner.

Establishment is to be that the Canadian Alps are now a reality. This is the result of the rapid advancement of mountaineering in Canada, which has led to the formation of the Alpine Club of Canada, which has been the means of enabling thousands to enjoy to the full this most interesting sport. It is still less known that it is so active in its efforts to make the mountains more accessible to the public and to make it possible for the pleasure-seeker to enjoy the mountains in the most comfortable manner.

MUSIC AND DRAMA

(What the Press Agents Say)

"GRUFFIN'S"
When it comes time to classify the
New York musical drama, "Gruffin's"
House, Monday night, December 31st,
the musical drama was for a month
the musical drama applied on whether to
define the attraction as a musical
or a musical comedy. Finally he
let it alone. Catherine Frick, decide
and they come in the conclusion that
"musical comedy" was the term most
appropriate.

"Gruffin's" production is a play
every high class Broadway production
should be and presents the same old
themes and realistic settings used
during the Liberty Theatre run will be
shown here. Another feature that has
been interest and around audience
who favorable comment is the lack of
banalities. This chorus represents a
sick of the new "banalities" of the
broadway and their certainly know
how to dress, sing and dance.

NO LIMIT IN REALISM
Think of it. Tom Mix is coming to
town to time a train and crash about
it as it flows at the rate of 60 miles an
hour. Also to save a lady fall, and
down a monster staircase, regardless of
his neck and up a high tree to escape
a monster headless and kill her. If
Tom Mix does half the things he is
choked in to in the frame reports of
his "Rough Riding Romance", the
second of the series of million dollar
productions which is to be shown at
Gruffin's tomorrow (Saturday) matinee
and night. "Rough Riding Romance"
is the story of a Princess, who when
in peril calls for aid upon a
knights errand, escorted by Tom Mix.
He saves her and also gives her royal
favor. If she lives up to his great
promises for this picture he is going
to beat his own remarkable record.
You other serious comedies and musi-
cals are also being produced on the
same program.

THE DAILY INTELLIGENCER, SATURDAY, DECEMBER 6, 1913.

Reunion and Banquet Of 80th Bn. C.E.F.

OFFICERS AND MEN OF THE 80TH BATTALION MEET AT
HOTEL QUINTE FOR FRATERNAL GREETINGS—
—SPLENDIDLY FOLLOWED BY CON-
CERN.

In the early part of the year, 1914, the 80th Battalion, C.E.F., which was recruited in Eastern Ontario with headquarters in three west Ottawa wards, was under the command of Col. W. A. Mitchell. It was a very successful unit, and its members were respected officers. After arriving in France, the Battalion was linked up with other battalions, but the 80th Battalion did remain separate for the cause of France and a number of its lives were sacrificed. It was a very successful unit, and its members were respected officers. After arriving in France, the Battalion was linked up with other battalions, but the 80th Battalion did remain separate for the cause of France and a number of its lives were sacrificed.

Through the kindness and hospitality of the former commanding officer, the first reunion of the Battalion since the war was held at the Hotel Quinte yesterday and it was a day which will be remembered by those who were present. Many of the old officers and men were present also the members of the 1st Band of Hamilton, the majority of whom were members of the 80th Battalion band. Lieut. H. A. Stewart is still in command of the band. The reunion was a very successful one.

In the afternoon at Hotel Quinte a banquet was held and about 100 of the 80th Battalion were present. W. J. Mackinnon, president of the 80th Battalion, presided at the banquet. The banquet was a very successful one. The 80th Battalion was a very successful unit, and its members were respected officers. After arriving in France, the Battalion was linked up with other battalions, but the 80th Battalion did remain separate for the cause of France and a number of its lives were sacrificed.

Mr. E. J. Porter, K.C.M.G., president of the 80th Battalion, presided at the banquet. The banquet was a very successful one. The 80th Battalion was a very successful unit, and its members were respected officers. After arriving in France, the Battalion was linked up with other battalions, but the 80th Battalion did remain separate for the cause of France and a number of its lives were sacrificed.

Ex-Kaiser's Trial Will Take Place

LONDON, Dec. 6.—Speaking at the House of Commons, the only member of the Imperial War Commission, Attorney-General, Sir Asquith, was not sure that there were any grounds for a trial of the Kaiser. He said that the Kaiser was a prisoner of war, and that the only way to deal with him was to keep him in custody. He said that the Kaiser was a prisoner of war, and that the only way to deal with him was to keep him in custody.

Six And Half Hour Day Proposed

CHICAGO, Dec. 6.—Distribution of all supplies of coal now being in the United States, was urged by anti-trust officials today. They said that the coal situation was a very serious one, and that the only way to deal with it was to propose a six and half hour day. They said that the coal situation was a very serious one, and that the only way to deal with it was to propose a six and half hour day.

The Government's proposal to limit the coal situation was a very serious one, and that the only way to deal with it was to propose a six and half hour day. They said that the coal situation was a very serious one, and that the only way to deal with it was to propose a six and half hour day.

THE HONOR ROLL No less than 100 of the 80th Battalion were present at the reunion. The reunion was a very successful one. The 80th Battalion was a very successful unit, and its members were respected officers. After arriving in France, the Battalion was linked up with other battalions, but the 80th Battalion did remain separate for the cause of France and a number of its lives were sacrificed.

With the election of a former Premier in Ontario and the Embarkation of the Western Province of Canada on ambitious post-war programmes of economic legislation attention has been called to the various provincial governments as distinct from the Dominion Government.

As these Provincial bodies and their leaders spring into public, the readers of the Daily Intelligence in Canada and the United States will want to know a little more about them and about the Government of Ontario.

By this time this, the first year of the Herald's Ontario Magazine of Dec. 11, will have told something of the history of the provinces from Confederation day to the present time.

The Historical Portrait Series will have a photograph of a large gathering of Toronto Canadians. Two boys you know them.

will be the latest SUMMER HOTEL IN CANADA

Bignin Inn Overlooking Lake of Bays has been completed and will accommodate 600 guests.

It has been recently received at Grand Trunk headquarters that the hotel will have next year a summer resort hotel that will surpass in size and similar enterprise previously erected in the Dominion. This hotel will be in the Lake of Bays District of the Highlands of Ontario and will be known as the Bignin Inn.

The hotel is a beautiful island two and one half miles long, half a mile in width and having a number of sandy beaches. It is situated on the north shore of the lake, and is a very beautiful spot.

U.S.A. Intermediates Meet Senior Winners

Annual Meeting Shows the Hockey Body's Flourishing Condition. —Want a Substantive Goal—er—Travelling Expenses are Reduced.

TORONTO, Dec. 8.—There was a large attendance at the 28th annual meeting of the Ontario Hockey Association held in the Temple Building on Saturday morning.

Several important changes were made in the constitution, and the whole business of the association was carried off with proper spirit. The president's greeting, however, was a bit down and the report of the executive committee showed that the organization is in a flourishing condition. With the war a thing of the past, the activities are expected to be larger than ever.

Perhaps the most important change made by the delegates was one to allow the intermediate champions to play-off with the senior winners and thus the victors of this contest on in to the Allan Cup series as the official representative of the O. H. A.

In the past the intermediate was the only section that did not get into the play-off for the championship of Canada. The seniors competed in the Allan Cup and the juniors played the provincial champions for the O. H. A. men's cup.

The amendments were carefully considered by the delegates. Sherbrooke proposed that the following be added to clause 7 of the constitution and passed unanimously.

"In cities and towns desirous of playing in the senior series to be admitted to membership upon application as recommended by the O. H. A. executive as bona fide permanent and general established amateur club association and that all towns and villages represented in the O. H. A. in any season be given the right of membership."

D. H. Cole of Burlington, wanted the seniors dropped from playing the intermediate series and after a long discussion, compromise was made when Kitchener proposed that each senior club be compelled to register at least one intermediate player who will be loaned from playing in the intermediate series.

This will still allow the intermediate to stay in if they show the ability and apt the practice of registering one player in the intermediate series.

A. W. Dick's amendment to let the intermediate play the seniors was carried by a handsome majority. After the completion of the business of the Association was a strong support of this amendment.

The working regulations in regard to transfers were also passed. It was decided that all transfers to seniors must be made in advance of the season.

The referee's charge was located to allow him to draw a card as well as to referee a game.

His experience has mounted with the cost of living and it didn't take the delegates long to advance the proposed change to the referee's salary.

A motion by W. A. Fry, Deseronto, allowed cents a mile for ten men was set on the table.

Major Mancock, British Hero, Met Death Chasing Nerve Hun

ENEMY PILOT HAD AN EFFECTIVE TRICK AND HIS APPEARANCE WAS ALWAYS SPOKE FOR GREAT ACTIVITY.

How Major Edmund Mancock was killed and how his death was avenged, was recently revealed in a report from the British War Office. Major Mancock, who won the D. S. O. and two bars, M. C. and D. S. O., was killed on the night of August 1, 1918, while chasing a German Zeppelin over the English coast. He was credited with having destroyed several German airplanes—the British War Office says he gave his life to secure his last victim.

Major Mancock was known to British airmen as "Old Tom".

Near the headquarters of the Royal Flying Corps, Major Mancock was killed by a German plane while chasing a Zeppelin over the English coast.

His heroic trick was to fly low and, thus often caught aircraft by surprise. This tactic being used to hunt a Zeppelin, he was shot down.

For St. Lawrence River Power

TOBACCO, Dec. 8.—A big battle will be waged in the near future to control of the water power of the St. Lawrence River.

The Dominion Government has made the first move by the semi-official announcement that Sir Adam Beck's demand that the Hydro-Electric Power Commission of Ontario should be allowed to develop this water power is connected with the Provincial scheme to run electric railways and supply while coal to the industries of the Province will not be accepted.

Sir Adam was greatly astonished when he heard the news and was not disposed to discuss the problem in the light of the authorities at St. Lawrence.

His attitude for the present is one of holding his fire but he does not know his decision he will not accept without a struggle.

He has written a vigorous statement in which he will take of his coat and have a rough fight. He will undoubtedly have the backing of the Provincial Government which is in hearty sympathy with the Hydro-Electric scheme.

The great was informed on the last day of the week.

Three Make Apology to Commerce Board

OTTAWA, Dec. 8.—The Board of Commerce dropped a bomb into the ranks of the retail clothing men of Ottawa when the secretary read a statement that certain individuals given long papers by retail men following the issue of the order limiting prices on men's clothing really concerned the issue of the order.

The men who made the statements in question were given ten minutes in which to decide whether they preferred to apologise to the board for the statement or to be bound to whatever action it might decide.

The three men in question, Messrs. E. J. Brown, J. McNamee, and J. McNamee, the latter two merchants, decided to make the apologies and declared and said so when the board met.

When the proceedings opened some forty Ottawa retail clothing men were on hand, and they were represented by T. J. McNamee.

Surrender to U.S.

INDIANAPOLIS, Ind., Dec. 8.—Headed by Acting President John L. Lewis, the national and district officers of the United Mine Workers of America appeared at the Federal building and surrendered to U. S. Marshal Storey, who held capsules for their arrest on information filed charging eighty-four officers of the organization with conspiracy of crime.

Addressing Acting President Lewis, Queen, secretary-treasurer of the International Organization; Ellis Spaulding, editor of the Mine Workers' Journal; the official publication of the union; Percy Pollock, assistant; Edward Bennett, president of District No. 11; and William Michels, secretary of District No. 11.

Queen Mary accepts name from Indians.

BEAUFORT, Ont., Dec. 8.—That Queen Mary has been pleased to accept the Indian name of "Geoghegan" from the women of the St. Nicholas women's reserve is being broadcast in the information received from Ottawa. The name given is the Indian name of Mrs. Helen Hill, president of the St. Nicholas Women's Patriotic League.

The news also extended her gracious thanks for the address sent to her by the Indian women, and presented to the Prince of Wales on his visit here, October 20.

In The Schoolroom

WITHIN the last few years the Phonograph has been introduced into the school room with excellent results. For class singing it fills the long-felt need of a TRUE voice for the lead and serves as a great help to the young untrained voices to sing in pitch.

To teach patriotic songs to a class of children, it has no equal; children learn very quickly by ear and imitation.

As music for class drills and marches the phonograph is the thing; it keeps perfect time and never gets tired.

Now, if the phonograph can be used to such good advantage in the school, isn't it logical to claim that it could be made to be just as great a help to the mother at home?

That portion of her tasks which she has to do with the development of such talents as singing, elocution, English, can be lightened with the Phonograph.

To say nothing of the entertainment which is in the Phonograph for both young and old, the strict educational side is well worth considering.

Come in and let us demonstrate the educational possibilities in the Phonograph.

Lindsay's also sell Columbia Gramophones and Records.

The Choice of the Phonograph

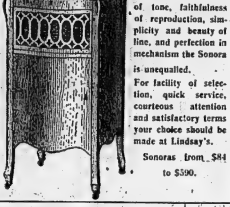

In choosing the educational Phonograph great care must be taken that its reproduction be perfect, true and musically correct. No mistake is possible if it is

SONORA

is chosen. For quality of tone, faithfulness of reproduction, simplicity and beauty of line, and perfection in mechanism the Sonora is unequalled.

For facility of use, quick service, courteous attention and satisfactory terms your choice should be made at Lindsay's.

Sonoras from \$84 to \$300.

OPPORTUNITIES LIMITED.

Among the various organizations established in England for the carrying out of reconstruction plans in the Dominion of Scotland, the committee, which undertook to investigate the opportunities offered in this country for women from the United Kingdom. Exactly what this committee has expected to find as a result of their investigation was what any Canadian immigrant agent would have told them, namely, that there is in Canada a great demand for domestic servants and very little demand for any other class of female immigrant. The committee has reported to Lord Huffer to this effect, incidentally expressing the opinion that a female servant in Canada, to be acceptable, should be, as a rule, a prohibitionist and a non-smoker, and that "aggressive unromanticism" in many districts of Western Canada would not meet with approval.

The inference is that, without this caution, the servant problem in Canada might have been solved completely, by the arrival of some thousands of aboriginals, having the broadest religious views, addicted to the use of tobacco, and possessing a taste for intoxicating whiskeys, under which caution, it would be extremely difficult to satisfy. Here again prohibition exerts its belligerent influence, constricting this time between the housewife and the solution, albeit a libelous one, of her moral teaching problem. The report adds that, in the least one of her moral teaching problem. The report adds that, in the least one of her moral teaching problem.

Neighbors Taking Notice.
The neighbors are beginning to sit and take notice of Belleville's energy and progress. Under the heading "Another Lesson from Belleville," the Kingston Whig says:

It is somewhat surprising to the pride of our good old city that the neighboring municipality of Belleville should be able to lead the way as it is doing. It has secured industry, it has now an industrial city, which will let well with its history. It is at present in the midst of a campaign to build up the County of Frontenac and create a new and aggressive community spirit. In all these things it has shown the way to Kingston. Yet there is still another matter in which it is giving Kingston a lesson.

When Kingston refused to take advantage of the provisions of the Ontario Housing Act, it has been in the way of its own progress. Belleville took the chance and came in under the terms of the act in a small way. The modest twenty thousand dollars, but it was used as an experiment to build the houses. The result was that the city and the City Council of Belleville has now decided that the money was an excellent one, and as a result the sum of two hundred thousand dollars, it has been approved for the operation under the Provincial Housing Act in 1910.

The Council of Belleville has now decided that the money was an excellent one, and as a result the sum of two hundred thousand dollars, it has been approved for the operation under the Provincial Housing Act in 1910.

Kingston might well adopt this same vision of the future. We have faith in the city and her citizens. We believe that the vast majority are anxious to see the dawn of a better day in Kingston, and we look to the electors to express this faith by their votes on election day. But houses are needed, and needed in large numbers, in Kingston. The Ontario Housing Act has proved its worth in eighty cities and towns in Ontario. Then why should it not be a success in Kingston? Our new Council should be composed of men who have the vision to see a bigger city and the courage to provide for its growth.

Premier Drury's Private Car.
Premier Drury, when in Ontario in a private car, or "official car," as it is more appropriately called. This fact that democracy in the new Farmer-Labor Government would balk at the private car habit seems to have been unfounded. Premier Drury and party can doubt find it an official car very convenient, efficient, economical and time-saver. Sleeping in the car instead of a hotel were able to make up an afternoon in their travel zone, due to the car having been attached to a freight train during the night. Hence being stationary, cannot be attached to a freight train, and while the country is at will. Also, having some of their meals en route saved time and the car was in motion they had time to concentrate upon the data given them at the last stop. The Premier's private car is a very good one, and the requests for separate treatment for the chauffeur in the mass thing, as well as get their speeches ready for the reception at the next port of call. Hence the private or official car is a real necessity and not a luxury upon the most simple plan.

Northern Ontario is a very important section of the province, not only on account of the large revenue received there by the Government, but also on account of its possibilities in agriculture, forest, fish, minerals and manufacturing. The only way to proceed with development is to show no signs of pinching out and there are vast areas left to be opened up. It is a land rich in pulpwood, for which there is a large and increasing demand for the making of paper, cardboard, pulp, and other products. The north country is also the home of the lumberman who are denuding it of the standing timber at a rate which calls loudly for a sane reforestation policy. Agriculture lends splendid opportunity in the great city belt, where farms, to be secured, practically for free, and the settler assisted by Government, can proceed with development.

There are plenty of good water-powers inviting industry and development. There are plenty of good water-powers inviting industry and development. There are plenty of good water-powers inviting industry and development.

Sinn Fein Plots To Seize Prince While on Visit

Was to Have Been Held for Ransom, Naval Investigation of Irish Republic.

LONDON, Dec. 10.—Your correspondent, upon high authority, here gives you a revelation (unpublished account of the Sinn Fein plot hatched in the United Kingdom, with operation, surprise, intended, to kidnap the Prince of Wales when he was in America and hold him for ransom, until the revolution of the Irish Republic was fully informed.)

"It has been hatched the advisability of detaining the prince, not that the Prince is safe at home, but no means for the Sinn Fein, for the fact is I have them. For reasons which will be explained, the prince can only give a mere outline of the plot.

TO BE SEIZED AND HIDDEN
"A high-powered motor car was to be brought up to the site of the station at which the Prince was due to alight in America. It was to have been seized and carried to a waiting car in which he was to have been conveyed to a secret hiding place. The car was to be there to have been at the Canadian border, Philadelphia or Washington.

"As soon as London officials received information of the plot they communicated with the British authorities in America and prevented as far as possible the Prince from leaving the country in his own plane, in which, nevertheless, the possibility of the execution of the proposed scheme.

WITNESS HIS LIFE
"It is not advisable for me to say more on the matter, except to emphasize that it was all hatched in connection and as far as we know at the moment no American entered into the conspiracy. Some of the names of the leading spirits connected and the clever manner in which their calligrams and letters were intercepted may be made public, but with the Irish situation at the present state, it is not wisdom to make further revelations."

SCOTLAND YARD DENIES
With the foregoing facts, your correspondent visited Scotland Yard, where the customary denial was made. Members of the Prince's party have nothing of the incident until after they had returned home to Scotland. Furthermore, the extreme popularity which the Prince's visit to America attracted would have made such a project a very risky proceeding for the government, and undoubtedly would have involved against its being carried out immediately.

GEN. ROSS TO HANDLE WORKLESS FUND
KINGSTON, Dec. 10.—It was announced here yesterday that Brig-Gen. R. Ross, M.P.P., has received the appointment of Administrator of the Federal Government Fund for Soldiers. Gen. Ross will open an office in Ottawa to look after the administration of the fund, which is to be extended by the Government.

In Maidenhood, Womanhood and Motherhood

London, Dec. 10.—For many years Dr. F. J. Fisher's Female Preservative has been the most famous medicine for the female system. It is a medicine that is not only safe but also effective. It is a medicine that is not only safe but also effective. It is a medicine that is not only safe but also effective.

SAVED HER LIFE
"I am a married woman when I first started taking Dr. F. J. Fisher's Female Preservative. I was a young woman when I first started taking it. I was a young woman when I first started taking it. I was a young woman when I first started taking it.

Female Preservative should have the foundation of every woman in Canada. Because it contains no alcohol and no narcotic. Dr. F. J. Fisher, when he first made the standard medicine, that whether and whether were injured, and so he has always kept them out of the medicine.

Boy Burned In Grandfather's Home
HAMILTON, Dec. 10.—John Wornell, nine years of age, was born to death last evening in a fire that destroyed the home of his grandfather, Charles Stuart, Dundas street.

Fed Elevator Shaft Proves Fatal to Victim

**ALEXANDER REID KILLED AT CORBYVILLE—PERRY SLAIN
SEVERELY INJURED AT DISTANCE
OF FORTY FEET—UNFORTUNATE AIR
BEING INVESTIGATED.**

Shortly after 3 o'clock yesterday at Corbyville, Alexander Reid, a young man, was killed and Perry Smith, who was severely injured when they fell down the shaft of an elevator at the Corbyville plant operated by the Canadian Alkali Company.

The shaft, which was about 100 feet deep, was the result of a fall from the top of the shaft. The elevator was in the process of being lowered when it fell.

The cause of the accident is being investigated by the coroner. It is believed that the elevator was not properly secured before it was lowered.

Liquor Hidden in Needs Detectives Watched Had By

TRIAL CONTINUED OF RAILWAY EMPLOYEES ACCUSED OF WHOLESALE THEFTS OF LIQUOR IN TRANSIT—DETECTIVE SAYS HE WAS OFFERED \$100 TO LET PRISONER GO.

The case against James Prechtelbach, upon being asked how much beer he had removed, stated that he had removed two cases.

The sittings of the County Court were resumed at 10 o'clock yesterday afternoon.

The first witness called was Mr. H. V. Harris, special officer for the G. T. R. Company, Belleville. Witness testified that he examined the car in question about 11:30 and found that the north door was unlocked and placed a seal thereon. Witness examined car at 3 and 4 o'clock a.m. and found seals intact.

Upon reporting on duty on the morning of 13 day of September, witness found that the car had been tampered with and that an empty case had been found in a coal car. Six cases were found separate the seal and were put in yard office, and upon investigation by witness and special Constable McMoran, whiskey was discovered in a ditch north of line of rail.

Hugh McMoran, special agent for G. T. R., has been in Belleville six months, and in company with Constable Harris, commenced search about 6 o'clock on the day of September 13, 1919, and came across liquor hidden in long weeds near extreme east corner. Witness, in company with Chief Constable Moran, hid in watch about ten feet from where whiskey was hidden and about eleven thirty-eight meter car coming along road from West. The lights went out two forms started across fields and hid in place where liquor was hidden and went down, appearing to be moving something. Upon the appearance of the Constable, Prechtelbach and witness and Nicholson was placed under arrest. Witness testified that Prechtelbach offered \$100 if they would let him go. Witness claimed he was the jury from the engine house and was not what it was.

Francis J. Nathan, testified that Prechtelbach made statements after he was warned that anything he said might be used as evidence against him.

Court was resumed at ten o'clock this morning when Alfred Nicholson was cross-examined by Mr. Porter and testified that motor car No. 92-231 was the car which, fifteen cases were loaded on and was a case sealed one. Witness testified that no conversation was carried on in any case between witness and Prechtelbach.

Witness stated in the cross-examination that he was not the driver of the motor car to the north of the line of the yard. Witness testified that he hid in the woods near the engine house and saw Prechtelbach and witness and Nicholson was placed under arrest. Witness testified that Prechtelbach offered \$100 if they would let him go. Witness claimed he was the jury from the engine house and was not what it was.

Francis J. Nathan, testified that Prechtelbach made statements after he was warned that anything he said might be used as evidence against him.

Reginald Abrams, operator for the G. T. R. in the yard office, in the east end yard, testified he went on duty to the McMoran's residence and parked his car on the eastern side of the yard office on G. T. R. tracks. He was asked if he would lose the car by Mr. Summers between the hours of 3 and 2:30. The car was not seen about now. Witness testified that he saw the engine go past yard office a number of times. Witness did not hear the car go away or come back and testified that he did not know who took the car.

At this juncture Court adjourned until two o'clock this afternoon.

Frehette Case
Goes to Jury

(Continued From Page One)
In sold up his hands and he thought
that, perhaps, the party calling out
were lightermen. Two about were
found, but witness continued to run.
He left Nicholson by the jug. After
running for some time he stopped and
sat on the roadside. When the two
special constables came up to him.
He did not utter a word to them in-
deed. When they asked him if he was
Whelan never offered an explana-
tion to the constables as to what they
were doing there. Witness said to
Molten, that Nicholson had seen some-
thing from the motor and they were
investigating what it was.
This closed the defence and court
adjourned until Friday morning.

Case Goes to Jury
At the opening of the Court this
morning the jury was addressed by
Mr. Porter, K. C., on behalf of the
prosecution and Mr. Carnoy for the Crown.
His Honor Judge Deneau summed
up the case and at 1 o'clock the jury
retired to consider their verdict.
The jury returned at 4 o'clock and
retired to consider their verdict.

Natural Tread Shoes

The Natural Tread Shoes Ltd., of
Toronto is a company deserving of en-
couragement. In the operation of a
large retail store there has been the
serious handicap of inadequate dis-
tributors of shoes from their manufac-
turers. And the only solution presenting
itself is their own factory; this they
purpose establishing in Belleville.
Specially designed lasts and patterns
have always been owned by them and
their shoes made under their super-
vision.

The old canning factory presents an
opportunity of immediate occupancy,
being away with despatch of building
under present high cost of material,
and conditions. This factory would
take care of about 400 pairs of shoes
per day—adequate to start an indus-
try that already has the endorsement
of Belleville's most influential men. It
is also felt that employees and special
ty style are more likely to be secured
here than in larger industrial sections.
About one to two hundred hands will
be required eventually.

"Taplin" Natural Tread Shoes have
been recommended by the most wonderful
designed; Toronto General Hospital
adopted them officially four years ago
for the 500 nurses. The Women Physi-
cians of America, in convention at
New York pronounced them the pro-
ducer alone requesting that they be
put on sale in all large centres of Eu-
rope. In fact, that their 100,000 num-
bers who desired might produce them.
Also that official recognition of the
United States Committee of the N.A.C.C.A.,
of U.S. and Canada, a truly wonder-
ful award for a Canadian designed
and Canadian made shoe. Orders for
these shoes can be seen on file from
almost every portion of the civilized
world.

The lasts on which these shoes are
made are never changed, saving an en-
ormous outlay in factory production,
such as clearing old style lasts, build-
ing up factory two months every year
because of changing styles, resoling
of machines, etc., etc. Think of this
savings, plus the added proficiency of
help when they have a standardized
shoe to work on year after year.

The Natural Tread Shoes feature
straight, lasting heels, flexible sole
shanks, long very fitting vamps, low
cut, smooth, comfortable, best qual-
ity materials and workmanship and
last and best of all, they are made
the shape of a normal human foot.

The wearing of these shoes for
from 20 to 40 days is a normal human foot.
The wearing of these shoes for
from 20 to 40 days is a normal human foot.
The wearing of these shoes for
from 20 to 40 days is a normal human foot.

Why should Belleville citizens
not support an industry of this sort
rather than turn their money out-
of-town to support and develop else-
where?

Belleville has an opportunity at one
time of interesting The McLaughlin
Motor Co. to build wonderful industry
and send it to Ottawa for want of support.

Natural Tread Shoes Ltd., only ask
for a reasonable backing in the sale
of company shares; they will in re-
turn bring \$40,000 to \$50,000 and
start an industry with a great future.
Think of what this means to you as
an citizen or merchant of Belleville!

Moore V. E. Thelin, and G. B. S.
The Natural Tread Shoes Ltd. have headquarters
in the Empire Hotel and desire to in-
vest all interested. These men are
Orthopedic shoe specialists and are
ready and willing to lecture with il-
lustrative slides to all organizations
interested.

The New York American
Club has announced its intention of
making an effort to depose President
Lincoln Johnson.

Fox of Balkans
Will Face TrialEx-King of Bulgaria to be Brought
Back to Sofia.

GENEVA, Dec. 13.—Determination
to bring former King Ferdinand, of
Bulgaria, to trial was expressed by M.
Stamboulski, the Bulgarian Premier,
in a speech made here on his way
home to Sofia from the Peace Confer-
ence. The Premier said he would im-
mediately demand the arrest of the
King and would press the prosecution
of the members of the former
Bulgarian Cabinet, who were re-
cently arrested on the charge of be-
traying Bulgaria into a disastrous war.

LET THERE BE HARMONY IN THINGS ESSENTIAL—LIBERTY IN THINGS NOT ESSENTIAL—CHARITY IN ALL.

BELLEVILLE, ONTARIO, DECEMBER 13, 1919.

Frechette Found Guilty Of Theft of Whiskey

JURY FIND ACCUSED GUILTY ON ONE CHARGE—FIND HIM NOT GUILTY OF OTHERS—JURY VERDICT ON FIRST SERIES OF CASES WHEREIN THEFT OF WHISKY FROM FREIGHT CAR IS CHARGED.

The jury in the case of Prosper Frechette, charged with the theft of whiskey from a freight car, today returned its verdict. The jury found Frechette guilty of the theft of whiskey from a freight car, but not guilty of the other charges. The jury's verdict was based on the evidence presented by the prosecution, which included testimony from several witnesses and the discovery of whiskey in Frechette's possession.

Fined \$350 For Selling Liquor

At the police court proceedings today, the case of J. C. Sprague, charged with selling liquor, was heard. The court found Sprague guilty and fined him \$350. The case was brought against Sprague for selling liquor to a person who was not of legal age. Sprague's defense was that he was not aware of the person's age, but the court found this defense unconvincing.

Court Writes Baby's Destiny

IRENE IS THE DAUGHTER OF WORKING GIRL—CLAIMED BY MRS. MATTERS.

The case of Irene, a young girl whose parentage was in dispute, was heard in court today. The court ruled that Irene is the daughter of a working girl, Mrs. Matters. The case was brought by Mrs. Matters to establish her claim over Irene. The court's decision was based on the testimony of several witnesses and the evidence presented.

Second G.T.R. Liquor Case

Commenced in County Court

A second case involving the theft of liquor from a train was commenced in County Court today. The case was brought against a person accused of stealing liquor from a freight car. The court is expected to hear the case in the near future.

Profiteers Who Have Dishonored Their Brethren To Be Punished

BOARD OF COMMERCE ISSUES ANOTHER WRITTEN STATEMENT UPON ITS POLICIES—TAKING OF UNJUST PROFITS NOT AS COMMON AS CLAIMED.

The Board of Commerce has issued another written statement regarding its policies. The statement emphasizes the board's commitment to fair trade and its opposition to profiteering. The board claims that unjust profits are not as common as they are often claimed to be.

Late Telegraph Brigs General Ross In Ottawa

General Ross, who had been in the United States, returned to Ottawa today. His return was announced by a late telegraph. General Ross is expected to continue his duties in the Canadian military.

Will Extend Patriotic Fund Organization To Meet Situation

The Patriotic Fund Organization has announced that it will extend its operations to meet the current situation. The organization is committed to supporting the war effort and providing aid to those in need.

A FAITHFUL EMPLOYEE

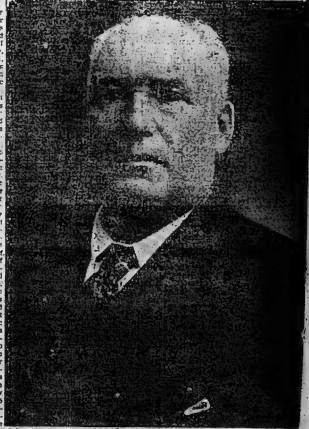

Forty-one years of continuous service as a locomotive engineer without one accident to mar his record, is the remarkable record maintained by Mr. Law Patrick of Hertsford, formerly of Hertsford, C. and P. and previous to October 21, 1912, an engineer, operating train No. 1 of the Canadian Pacific Railway main line at the station.

Mr. Patrick's record is one that it will be hard to duplicate. He is a man still hale and hearty and full enjoyment of his strength and faculties but has decided to take a rest from the long strain of his railroad duties.

He is one of the pioneers who came west with the railroad and developed as a locomotive engineer with the Canadian Pacific at St. Bonifas, Manitoba, when a young man of twenty-five years of age he passed successfully through the occupations of brakeman, conductor, freeman, and engineer during the first year of his service. His first engine was one of the old, wood-burner type and he has seen rail-ways motor power develop from that "hump" through coal burners, of various kinds to the latest type of electric power. As a freeman he developed Mr. Patrick kept pace and worked hard at his duty.

He was working on construction work in British Columbia, and was present at the accident when Lord Strathcona drove the last spike that linked the Atlantic with the Pacific coast. Since then Mr. Patrick has been driving engines on the mountain railroads. From June, 1899 to the spring of 1912 he was driver on the East Imperial Limited passenger train. On those alone he has carried over of thousands of passengers in safety. Perhaps no one man in the service of the great railway company has carried more people than he has. Long before he retired from active service his reputation as the safest engineer of the whole country had gone abroad.

People liked to know they were to be drawn by Law Patrick, because it meant that the chances of an accident were reduced to the minimum. Though the Canadian Pacific company has been very proud with pride in its wonderful record in the past, the company has been very high among railroad men and the travelling public yet to have a man, from president to the newest brakeman, take pride in the record of this veteran engineer.

Mr. Patrick, the Veteran of 41 Years' Service to the Public.

added sacrifice to those who knew Mr. Patrick is an example of the splendid type developed by the railroad service. His duty to his company and his mastery was his guiding principle. He was married in 1894 and has three children, Miss Jean and Mr. John Patrick of Vancouver and Mr. John Patrick of Calgary and Mrs. Alberta.

NT STREET. BELLEVILLE, ONT

Daily Intelligence

OTHER VIEWS

Speed the Good Work.

Leontine Courier-Journal.

Leontine has been arrested in Louisville for returning to turn the right on meeting another politician.

A few more arrests like this might impress upon the lawbreakers the fact that lawbreaking is a violation of the laws of the city, as well as of common sense and common courtesy.

In the Gentle Days of Peace.

San Francisco Chronicle.

British feeling of events into place has hit upon some remarkable parallels, according to a constant report.

As a few instances, shells are being made into mulling carts and shell-polluting containers from airplanes are being altered into lamps, airplane engines are being adapted to motorcycles and pumping plants, and tanks are being cut down and transformed into factory locomotives.

In the Land of the Free.

Philadelphia Record (Daily).

Mr. Lodge counts on the President sending the Peace Treaty to the Senate again, and when the Foreign Relations Committee gets hold of it he promises to keep it till the Democrats promise to vote for the reservation.

It would be a good idea for the President to turn the tables on the Republicans by refusing to send the Treaty to the Senate until the Republicans promise to vote for it without adding it or changing it.

The Changed Attitude.

Boston Globe.

What has emboldened the Germans to start haggling again? The spectacle of division among the Allies. Italy looking on at D'Annunzio's private venture; England alert to the falsity rich commercial possibilities in

making an ally, and, with-
out the French, British and
planning history of the Allied policies
which served them of much created
pool; particularly in Russia; but
more than all the proclamation to the
whole world of their ill-considered
contained in the United States' drastic
rejection of the treaty.

The Poet's Corner

THE JEST.

By Florence E. O'Connell.

With the solemn breath of Peace,
A world about to breathe,
A world about to breathe,
A world about to breathe.

Instead, we hear a sordid
And the world is dire,
We sometimes think this peace talk
Is but a cruel jest.

CRISIS COMMENT

The Canadian dollar is worth more at home than abroad. It always was, only we were too thick to see it.

The old-fashioned man who wanted little less below must have got it and left—Philadelphia together.

The small boy is standing Sunday school regularly these days. "There's a mouse!" Christmas is over and he's back to his normal size.

"When making up your list of Christmas presents remember that a subscription to this great family journal would be a welcome gift to a nation, or piece away from home."

Prohibition must be altered, as a society in Ontario because in the Province districts the neighbors were often to stand around and watch a house hold party, so the well-to-do will be on the collection plate of our favorite beverage.

High-priced harvest hands in Kansas demanded and received six meals a day, but were not fed because they could not cook food, eating, after meals that they barely did not know how to pay for themselves.

"Ontario is not to be the Monte Carlo of America," says Attorney-General Borden. And the returned soldier lauded, "Borden's danger that," he said. "We're landed, only plans will be on the collection plate of our favorite beverage."

Belleville's application for \$200,000 from the Provincial Housing Fund has been returned \$3.75. Borden while we were making up our minds whether we wanted more houses or not and other things in mind.

Now that the Yanks are getting so cocky about taking Canadian money, let them take it in their own hands. Let them take it for a while and they will pay for the return of the good old Canadian dollar.

OTHER VIEWS

The Poet's Corner

BEYOND REALITY
The poet's corner is a place where the poet's mind is free to roam. It is a place where the poet's imagination is free to roam. It is a place where the poet's imagination is free to roam.

A Laugh Or Two

"Did you hear the one about the man who was asked the land water?"
"No, I didn't." "Well, he said, 'I'm a land water man.'"

A Canadian Tale

For two hundred years, the local politics of civilized countries have been divided into three classes, each class being founded on the theory of a school of political economy.

Free and Easy

Dem Jones was a little to be crisscrossed with the land water man. He was a little to be crisscrossed with the land water man. He was a little to be crisscrossed with the land water man.

THE SOUL OF FRANCE.

That France refused to yield in the darkest hour of the long struggle was due, according to Madame Cleonore-Jacqueline, the daughter of the French President, and who is present in the city of Ottawa, to the unconquerable military strength, as to the passionate love of France, embodied in the breast of every French soldier. Love of country was general. Inspired by this love, men had everywhere been willing to make sacrifices; but the love of the French people for their brother France transcended that love. It was close, passionate, all-pervasive. It stood at no sacrifice. It was the life and thought and hope of the people.

That France refused to yield in the darkest hour of the long struggle was due, according to Madame Cleonore-Jacqueline, the daughter of the French President, and who is present in the city of Ottawa, to the unconquerable military strength, as to the passionate love of France, embodied in the breast of every French soldier. Re

134

OTTAWA, Dec. 30.—An unqualified denial of a newspaper item to the effect that the sum of \$35,000,000 had been brought to Canada as this country's share of the profits in the British Expeditionary Force Canadian system was given by high officials of the Ministry of National Defence and the Department of Overseas Military Forces of Canada. Officials of the latter department characterized the article as a "fairly tale" and said that "evidently some one in Ottawa was having a joke at the expense of the public."

Although no definite statement forthcoming as to what Canada receives as her proportion of the profits of the British Canadian System is understood that the amount will be a small fraction of that mentioned in the story. It is also stated that no allocation has yet been made of these funds and that they are under the control of the Navy Army Canteen Board.

Liquor Interests To Sue Government

Losses in U. S. as Result of V. Time Prohibition \$400,000,000

CHICAGO, Dec. 18.—Experts estimate their losses as a result of the enforcement of the War-time Prohibition Law at \$400,000,000 a year, and that the total made here today by J. Edgar Hoover, chief counsel for the U. S. in the Middle West.

He announced that a suit to recover approximately this sum from the U. S. government was filed in the U. S. District Court in Washington. He will go to New York Monday or Tuesday to confer with legal representatives of the U. S. government with regard to filing of the suit.

Attorney Mayer explained that the suit is based on the grounds that the U. S. government is attacking constitutional rights of the U. S. citizens by the U. S. Supreme Court.

Joseph Wolfe, a distiller's agent, announced the sale of 1,000 barrels of whisky for immediate export to Germany. The bulk of it is to be shipped to Germany. Small consignments will be sent to Switzerland, Holland and Norway.

Sixty Fine Animals Go Under the Hamm

**Pure-Bred Holstein-Friesians Br
Good Prices at Woodstock.**

WOODSTOCK, Dec. 10.—High prices were paid at the big sale of pure bred Holstein Friesian cattle held here by the Oxford Holsheim Breeding Assoc. in the Durham Hotel stables. Fifty fine animals were offered, with beneath Messrs. & Messrs. head. The highest price paid was \$750.00 was given by H. Fiddle of Burgess for the cow, Sylvia. Fannie Hunter owned by J. H. Lee of Ottumwa, K. Dixon of Guelph paid \$625.00 Cherry Grove Spotty, offered for by Arborgat Bros. of Sebringville. E. Hulet of Norwich paid \$600.00 Fairmont Daisy Alcala, owned by Arborgat Mitchell; F. J. Griffen

CLEANLINESS • IS HEALTH

By the use of Gillett's Lye, house cleaning
made a pleasure instead of a drudgery. It softens
the water and cleans thoroughly whether the
dirt is visible or invisible. Destroys all bacteria
and insecticide germs, removes obstructions from
drain pipes, clogs, sinks, etc. Refrigerators are
made delightfully fresh and clean by using a
teaspoonful of Gillett's Lye dissolved in two
gallons of water.

OWES HER LIFE TO
"FRUIT-A-TIVES"The Wonderful Medicine, Made From
Fruit and Vegetables

WEEKLY FINANCIAL LETTER

Written for The Intelligencer by
Bongard, Ryerson & Co., Financiers
Toronto.

MANAGER, PYRENE

On 25th Dec. Mr. Stewart, who is writing you to tell you that I owe my life to "Fruit-a-Tives", this medicine relieved me when I had given up hope of ever being well. I was a terrible sufferer from "Dyspepsia", had suffered for years and nothing I took did me any good. I read about "Fruit-a-Tives" and, lo and behold, after taking a few boxes, I was entirely cured. You have experienced in "Fruit-a-Tives" what I have, and I hope it will persuade others to "Fruit-a-Tives" and get well."

MANAGER, PYRENE

"Fruit-a-Tives" is the only medicine in the world made from fruit.

See a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid on receipt of price by Fruit-a-Tives, Montreal, Ontario.

PRESCRIPTION FORMS
HAD TO BE ALTERED

OSCAR, Dec. 26.—Information has come from Ontario in the effect that one of the reasons for the non-submission by the Attorney-General's Department of the new "15" anti-constipation liquor prescription form for the old "C" series was a recent judgment by the Ontario Court of Appeal in the case of "The People v. The People", which established that the old "C" series was not in violation of the law.

The "15" style prescription forms were printed on a kind of brown paper, which, while difficult of imitation, was not so difficult of imitation as the new prescription forms, which are printed on watermarked paper.

Year-end statistics of the industrial output in Canada are now being gathered in a hasty way. There is a fairly general consensus of opinion that the country year-end output, compared with 1909, was 10 per cent. higher. The total value of the output of the manufacturing industry, with some exceptions and high prices, from many quarters was approximately \$1.5 billion. The output of the manufacturing industry, with some exceptions and high prices, from many quarters was approximately \$1.5 billion. The output of the manufacturing industry, with some exceptions and high prices, from many quarters was approximately \$1.5 billion.

A note of warning, however, is being sounded here and elsewhere that the period of recovery will continue for some time. A note of warning, however, is being sounded here and elsewhere that the period of recovery will continue for some time. A note of warning, however, is being sounded here and elsewhere that the period of recovery will continue for some time. A note of warning, however, is being sounded here and elsewhere that the period of recovery will continue for some time.

LABOUR TRADES
An analysis of the trade report of the Dominion of Canada for the month of November shows that the total value of the output of the manufacturing industry, with some exceptions and high prices, from many quarters was approximately \$1.5 billion.

exchange, largely dependent on the United States (or many of its requirements).

PROFIT SHARING
The week's announcement that a Brockville manufacturer had decided to share his year's profits with his employees, giving them the sum of \$300,000 in addition to the very generous effort on the part of Canadian manufacturers to make things pleasant for their workpeople, will no doubt be a great help to the country and will be a great help to the country and will be a great help to the country.

REXCHANGE HONANZA
The abnormal state of exchange at present is not without its advantages. The interest here according to such reports as the pulp and paper manufacturers have already been a matter of concern, but it has not been generally appreciated that the high rate on New York funds is giving the Ontario paper a great deal of business.

Training in Use of
Artificia Limbs
Classes Will Be Opened for Disabled Soldiers in Principal
Courses of instruction in the most efficient use of artificial limbs are the most frequent advantage offered to disabled men by the Department of Military, Civil Establishment, and Marine. These classes will be opened in the principal cities.

THE COURSE
The course for men who have been divided into two parts, a preliminary course and a course for the men who wish to specialize in their own trade. The preliminary course will teach the men to use all such tools as the hammer, saw, chisel, brace and bit, and the men who wish to specialize in their own trade.

An Island Where Deer are Safe

Listening to the Barking of Hounds on a Distant Island.

The deep mutter of a deerhound's snout came faintly down the wind, shortly it blended with the sharper voice of a hunting Alfordale. The scream of a hunting hawk was not more terrifying to the timid deer of the British Columbia coast than the bay of the hounds on the trail. When they hear it they get up and co—straight for water.

The little spinis hound, born a few seasons before on the rugged, forest-clad coast of the Pacific province fitted his head. His cry and his ears, his very pose displayed the black vision of his last owner. He leaped into the forest of the island on which he stood, and he saw nothing alarming. He turned and stared across the water toward Nelson Island.

The little spinis hound, born a few seasons before on the rugged, forest-clad coast of the Pacific province fitted his head. His cry and his ears, his very pose displayed the black vision of his last owner. He leaped into the forest of the island on which he stood, and he saw nothing alarming. He turned and stared across the water toward Nelson Island.

Heed to bite a mouthful of grass life was safe. He was on Hardy Island.

Hardy Island is the city of refuge to all the deer that roam about it. Three years ago it was good hunting grounds. Today it is a deer men with gun, and bell paper, as the saying goes, it runs with hounds and dogs appear. It is unlikely that hunt deer with dogs in British Columbia, but it is still dogs in certain districts in spite of law. Two years ago, or perhaps slightly more than that, Mr. C. J. Leyland of England purchased Hardy Island. A son of his had situated him off Nelson Island at the mouth of Jervis Inlet. He bought it for experiment with fish trees in the B.C. climate. There were 2,000 acres of rich fields and forests, and there was a good orchard. He placed a watchman, Tom Brest, on the property and did no more toward development, preferring to await the end of the war.

But, a lover of animals, caught two of the wild deer that frequently swam to the island from the other nearby lands. He tamed them,

Taking an Apple From the Fingers of a Visitor.

They in turn brought other wild deer. Many of them had been run to water by dogs and took refuge on Hardy Island. Three years ago they had intimate the original spinis but were with the men who controlled the orchards where the "hounds" apples grew, the wild newcomers gradually grew intimate too. Today a herd of thirty deer, most of them born in witness, respond to the voice of Tom Brest when he calls. Some of them will step forward from the herd when called by name. They have no fear at all of man, when on Hardy Island. Sometimes they swim to other parts of the coast, and range about a bit, but they come back, often fagged from wood on the coast, but no dog and no man have borne what might happen should he try to hunt on the island of refuge. So the deer are safe, the world, and are adding to their numbers by natural selection, from the wild ranges, where humanity is not known.—V. E. A.

A

Bracelet Watch

The selection of a Bracelet Watch should be
more carefully made than almost any other ladies'
present. You know, it will be in constant action day
and night the year round.

It would be possible to offer lower priced ones
which "look the same," but we prefer to lose an oc-
casional sale and offer only such as are worthy our
positive guarantee to be a reliable timekeeper for
many years.

Strictly one price, but we won't be undersold.
